

L Mini Banner - Installation Guide

Product Parts

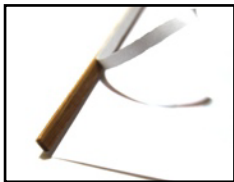

- 1- Bag
- 2- Bamboo Rails
- 3- Support Arms w/ Support Leg

Step 1

Take all parts out of the bag and place on a clean flat surface

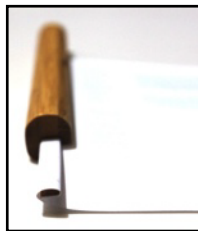

Step 2

Slide out the banner rail insert from the bamboo rail. Remove backing strip from adhesive supplied on banner rail insert. Carefully line up Banner Rail Insert with the top of the banner (on the back) and press firmly.

Step 3

Remove backing strip from the adhesive supplied on the other side of the rail insert. Fold the banner around the rail insert so that it makes a full turn

Step 4

Slide top of banner attached to the banner rail insert into the banner rail. Repeat steps two, three and four with the bottom of the banner.

Step 5

Rotate the support arms (3) so that both the arms are parallel with it, Support Leg

Step 6

Insert the Support Arm (3) into the slot on the lower Bamboo Rail.

Step 7

Gently bend the Support Arm (3) until you can place the Top Support Arm into the slot on the Top Bamboo Rail (2)

Step 8

Stand unit up on the Lower Bamboo Rail (2) and the Support Leg (3). Once set, your display is complete and ready to use.

Step 9

Alternatively the Support Leg (3) can be set at an angle of 45 degrees to the Bamboo rail. Then the banner can be used in landscape mode.

Note- When properly installed, the Support Arms (3) will bend pulling the banner taut. Installation of a banner smaller than the recommended size may cause permanent failure of the Display.
