

1. Artwork should be 2150mm high x 1200mm wide at finished size.
2. The non-visual areas (appearing in red on the graphic above) should be set in a colour rather than plain white. We suggest using an extension of your background colour/layout in these areas.
3. The visible area of your finished banner when mounted into the banner stand is 2000mm high x 1200mm wide.
4. Bleed is not required, however it is advisable to maintain at least 10mm between any text and the banner edge.
